Shown with TA-8 Steel Casing as example

The pre-finished steel **P-Series** Pocket Door Trim Kit is used to trim out Pocket Door openings. The purpose of the **P-Series** Pocket Door Trim Kit is to make Pocket Door openings consistent with other Timely Frames on the project.

Our P-Series Pocket Door Trim Kits are 18 gage pre-finished steel.

Finishing options include 2 standard colors, 4 premium colors, 29 pre-matched custom colors, project matched custom colors or primed for field painting. Galvanizing is available for all painted finishes and is REQUIRED in areas subject to high humidity, and or a corrosive environment.

Fire ratings are not available with **P-Series** Pocket Door Trim Kits.

Mullions are not available for **P-Series** Pocket Door Trim Kits.

For use with 1 3/8" or 1 3/4" Doors. Please refer to Pocket Door hardware specifications (supplied by others) for maximum Door weight.

**AVAILABLE JAMB DEPTHS**

4" to 13" in 1/8" increments.

6A Jamb - Pocket Door Trim

6U Jamb - No Stop

6V Jamb - Inverted Stop
